

LTS Education Performance

Data analysis and performance intelligence for schools

LTS Education Performance Service 2020/21

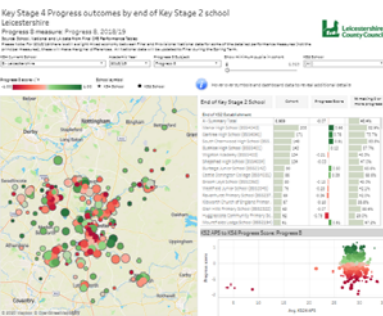

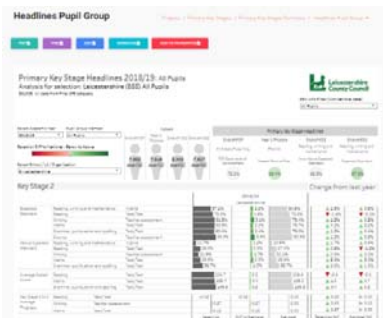

The LTS Education Performance team provides schools, academies and multi-academy trusts with a complete educational data package. We have many years of experience working with schools and data which allow us to provide an excellent service.

There are three main elements to our service offer:

Data Analysis

Our reports cover the full range of educational data. Schools signed to our service have access to two online systems, LIAISE and Perspective Lite. We pride ourselves on supplying schools with flexible and informative analysis far earlier than other organisations.

LIAISE is our in-house system and is tailored to support your needs. LIAISE provides you with access to reporting across the full range of educational data themes from end of key stage reporting to pupil context, attendance and exclusions. It is developed in Tableau to provide you with the best possible visualisation of your data.

Perspective Lite is only available through us and serves as a companion to LIAISE. It allows detailed data discovery of your end of key stage outcomes. Data filtering and aggregation options allow you to drill deep down into single or multiple outcomes for your pupil groups and see unique benchmarking data not available elsewhere.

Data Collection

We support you in submitting high quality data for statutory purposes by providing guidance and advice and quality assuring your data. Your returns will be accurate and submitted on time. We reduce the data collection burden for you. Your school data will be represented correctly in government publications and reports that are available to you.

Advice and guidance

Thanks to our years of experience we can provide guidance and advice across all areas of educational data. We can be contacted via telephone or email and are ready to assist you. We endeavour to support you with guidance and access to data.

LTS Education Performance

Data analysis and performance intelligence for schools

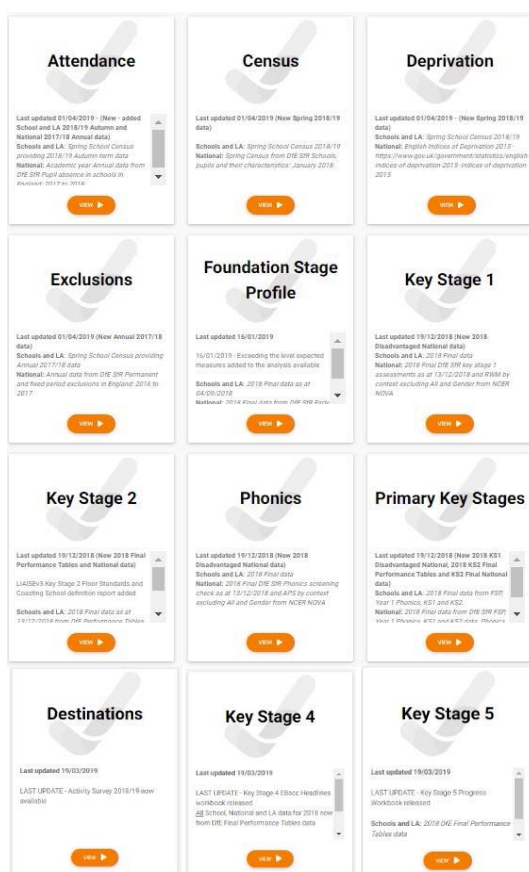

Elements of our Service Offer

Data Analysis

Access to **LIAISE** – our reporting system developed by us for schools, academies and multi-academy trusts

Powered by tableau

LIAISE provides reporting on:

- **Education attainment and progress** - access to a wealth of end of key stage performance measures for FSP through to Key Stage 5.
- **School profiling** - including data on numbers on roll, pupil characteristics; attendance and exclusions; deprivation and catchment area analysis. Supporting your understanding of the environment schools operate in.

Types of analysis available

- Headline performance measures
- Analysis for pupil groups
- Trends over time
- School lists for benchmarking and exporting
- Mapping of performance and pupil data
- MAT and TSA school group benchmarking

Benefits of using LIAISE

- Clear visualisation of your data, easily see your strengths and challenges
- Benchmark against other schools, LA and national data
- Excellent user interface and presentation based on Tableau, the world leader in data visualisation
- Reports are released months ahead of official DfE and OfSTED releases, giving you a head start on planning
- Access to early emerging national data for benchmarking
- MATs can see aggregations of their data and isolate analysis to their member schools
- Download save and print reports for use with colleagues and governors
- Individual logins and as many accounts as you require

LTS Education Performance

Data analysis and performance intelligence for schools

Access to Perspective Lite – for early analysis, self-validation of assessments and detailed data discovery

Reports

Real-Time Data

Trends

Watchsted ⓘ

Perspective Lite provides

- **End of key stage interactive analysis** very flexible and interactive performance data reports for FSP through to Key Stage 5.
- **Real time data trend charts** early access to charting of key stage outcomes
- **Pupil level reports** for self-validation of assessments submitted and for future reference
- **Watchsted and other educational tools** get up to date intelligence on OfSTED inspections and other innovative tools

Types of analysis available

- Performance indicator reports and lists
- Gap analysis
- 'Key stage on a page' summaries
- 'Pupil on a page' and pupil list reports
- KS1 to KS2 and KS2 to KS4 progress reporting
- KS4 and KS5 subject level reporting
- KS4 Ebacc benchmarking

Benefits of using Perspective Lite

- Aggregate and filter your outcomes by single or multiple pupil characteristics.
- Build on your knowledge of the performance revealed in LIAISE reports by using Perspective Lite to explore the finer details of your data
- Primary schools can see a very early emerging picture of what is happening at a national level
- Benchmark your outcomes against unique national and local comparisons to explore issues further
- Primary schools can access FSP, Phonics and KS1 reports the day after they submit their data
- Self-validation of assessments so you can be satisfied that what has been submitted is correct
- KS2, KS4 and K5 reports are populated very soon after each DfE data release
- Accurate KS1-KS2 progress reports are available far earlier than other sources can supply

Elements of our Service Offer

Data Collection Support

Department
for Education

School Census – ensuring the submission of an accurate statutory termly school census

- We supply guidance and provide advice in this complex area
- Guarantee that your submission is made to the DfE on time and compliant with their validations
- ‘Gold standard’ data quality checks so that your school is reflected correctly in national publications
- Make sure that the correct pupil context is used against end of key stage results
- Ensures that your school receives the correct funding for DSG funding and pupil premium
- Support with COLLECT - resolving errors, annotating queries and resolving duplicate pupil cases

Teacher Assessments – Tools to ensure that the data submitted is as per your expectations along with access to very early analysis

- Provision of guidance and support across the key stage collections
- Access to Perspective Lite for self-validation of assessments and early analysis of outcomes
- Supply of lists on LIAISE of pupils expected to take the phonics screening in year 2
- Submission of KS2 assessments to the NCA on behalf of academies
- Access to the full suite of end of key stage reports in LIAISE before the end of the academic year

School Workforce Census – supporting academies with the submission of their return to the DfE

- Provision of guidance and support for the collection
- Ensuring that your submission is made to the DfE on time and is compliant with their standards
- Support with the resolution of COLLECT errors and entry of valid notes against queries

Elements of Our Service Offer

Advice and Guidance

Supporting schools and academies with all their educational data needs

Helpdesk

We can be contacted via telephone or email to assist with your day-to-day enquiries. We answer questions relating to end of key stage outcomes, progress, attendance, exclusions and pupil characteristics. We have a wealth of knowledge built up from years of experience and have a strong understanding of the ever-changing world of educational data.

Advice is also available for the use of various educational data systems such as our own LIAISE system, Perspective Lite, and Analyse School Performance (ASP).

Provision of data

Due to our position within the Local Authority we have access to a full range of pupil level data to support your requirements:

- Prior attainment searches. Assisting you with 'filling in the gaps'
- Supply of key stage 2 prior attainment for pupils in the year 7 and 10 admission transfers
- Checking the pupil premium status of pupils joining your school
- Providing lists of addresses within your school catchment area

Annual Workshops and Training

We want schools to benefit fully from our service and therefore provide the opportunity for you to come and see us demonstrate, for no additional cost, through:

- Annual autumn workshops to showcase the latest LIAISE and Perspective Lite developments
- Attendance at multi-academy trust and teaching school alliance events
- Bespoke training upon request

Bespoke analysis and report development

By request we can also supply additional bespoke analysis to support school or multi-academy trust projects.
